

# Regain your youth with COMCIT

**COMCIT** is: Cryo Oxygen Microchannelling Collagen Induction Therapy.

It offers the simultaneous delivery of Cryo Oxygen whilst our unique Microchannelling Roller creates hundreds of microscopic channels in the skins epidermal/dermal junction, allowing the topical infusion of powerful skin rejuvenation ingredients to be driven into the skin. Resulting in:

- Instantly smooth, fresh, firmer, plumper and more youthful skin
- Reduced lines and wrinkles
- Tauter, more rejuvenated skin
- Promotion of new Collagen growth

The active ingredients contain Vitamin C, Hyaluronic acid and PhytoCellTec – based on stem cells of the Argan Tree. It is the very first active ingredient capable of both protecting and vitalising human dermal stem cells.

## ***COMCIT immediately gives firmness, tone and radiance***

**Q. What does COMCIT do for skin?**

- Helps firm ageing, lax skin
- Smooths and plumps lines and wrinkles
- Helps repair the effects of sun damage, including pigmentation
- Perfect for acne-prone skin (due to anti-bacterial effects of both oxygen and infusion)
- Allows deep penetration of active skincare ingredients into the skins layers
- Hydrates skin
- Provides oxygen to all levels of skin
- Stimulates Collagen production at a cellular level
- Helps smooth stretch marks and acne scarring
- Works on area of skin laxity on the body such as upper arms, tops of thighs, décolletage. It is especially beneficial treating the orange peel effect on tops of arms and thighs

During your course of **COMCIT** you can return to your normal lifestyle immediately, with no down time or interruption to your daily routine.

**Q. How long does it take to see the results?**

Results are immediate. Due to the simultaneous action of four skin rejuvenation technologies, you will notice the difference after your very first treatment. Your skin will be beautifully plumped and feel firmer. The result will get better and better as new Collagen production is kick-started around day 4. For the ultimate rejuvenation we recommend a course of 6 treatments, taken 2 weeks apart.

**Q. Why do I need to wait for 2 weeks before I have a further treatment?**

It takes between 4-14 days for your fibroblast cells to lay down new Collagen. At day 14 we can stimulate the repairing and restructuring process again.

**Q. How does COMCIT work?**

There are 4 modes of action: Cryo Therapy, Oxygen, Microchannelling and Skin Infusion work simultaneously, and in harmony, to encourage your skin to naturally repair itself by increasing Collagen production. Your skin is left beautifully hydrated, with an instant firming and plumping effect.

**Q. Is it safe?**

Yes, COMCIT is extremely safe, bloodless treatment

**Q. Does it hurt?**

Due to the Cryo Oxygen Therapy elements of the COMCIT treatment, it is completely pain free.

**Q. How will I look after treatment?**

Immediately after your COMCIT treatment your skin may look a little pink. This will start to subside after 1 -2 hours.

**Q. Do I need to use specific products in-between treatments?**

It is important that you use COMPLEX-C home care products. We have ensured that the active ingredients not only protect your skin after the treatment, but also enhance the results of your treatment.

**Q. Can I wear make-up after treatment?**

Yes as long as it is a specialised mineral make up.

**Q. Can COMCI be performed on any skin type and colour?**

Since COMCIT does not use thermal heat, unlike IPL and lasers, it is safe to use on all skin types and all skin colours.
